It records the most gigantic attempt ever made in the history of the world by a government to create an inconvertible paper currency, and to maintain its circulation at various levels of value. It also records what is perhaps the greatest of all governmental efforts-with the possible exception of Diocletian's-to enact and enforce a legal limit of commodity prices. Every fetter that could hinder the will or thwart the wisdom of democracy had been shattered, and in consequence every device and expedient that untrammelled power and unrepressed optimism could conceive were brought to bear. But the attempts failed. They left behind them a legacy of moral and material desolation and woe, from which one of the most intellectual and spirited races of Europe has suffered for a century and a quarter, and will continue to suffer until the end of time. There are limitations to the powers of governments and of peoples that inhere in the constitution of things, and that neither despotisms nor democracies can overcome.
