Not only does Wright excel at character building, but has a raw talent for perfectly meshing his environments to pull a reader into his world. I could see this book developing into a movie much along the lines of the Blob or the Fog. EPIC THRILLER. -- Kim Heimbuch Journalist April Murray always went after her stories with the tenacity of a pit-bull, only she never thought she'd be covering her own demise. Braving a winter storm, in a sleepy Oregon town, she investigates a possible radiation leak at a defunct nuclear plant. What starts as a routine assignment takes an ominous turn when a boy is attacked by a lethal and mysterious predator that lurks in the snow, turning it black as night. With the help of a local handyman and his son, April finds herself in a battle for her life, and soon discovers the ravenous creature living in the frost isn't the only one who wants her dead. BITTER COLD. Don't go into the snow.
