Pub Date: 2008 Pages: 289 Publisher: People's Health Publishing House title: the design of medical research projects. reporting and implementation of the original price: 38.00 yuan Author: Publisher: People's Medical Publishing Date: 1 September 2008 Day ISBN: 9787117103374 Words: Pages: 289 Edition: 1st Edition Binding: Paperback: Weight: 499 g Editor's Choice design. reporting. and implementation of medical research projects published by the People's Health Publishing House. The medicine is experimental science. scientific research is the key to promoting the development of modern medicine. Medical School graduates in basic medical received preliminary experimental skills training. but its purpose is limited to verify the theoretical knowledge learned in the classroom. Graduate study stage. the main task is to explore the unknown phenomenon of life. If undergraduate education targeted at the learning and accumulation of expertise. graduate education is standardized and systematic experimental studies to guide the students knowledge and mining. Once into the scientific research halls. research and practice inherent sacred and mysterious to graduate enormously attractive. but the research road frequently encountered twists and defeat. and often. so that...
