## Maps and Cities

---

By -

Gareth Stevens Publishing, United States, 2010. Paperback.  
Book Condition: New. 262 x 211 mm. Language: English . Brand New Book. Maps are what make it possible to travel far from home, over land and sea, and still have a good idea where we are. This unique series takes a look at different types of maps, how they re made, and what areas they service. These books teach young cartographers and travel fans how to understand the ins and outs of maps and navigation, exploration using maps, maps and measurements, and how maps chart our world. Key features: - Each of eight volumes explores distinct specialties within cartography - Colorful maps demonstrate all the potential uses for maps and globes - Filled with primary source material - Well-organized information, photos, and captions - Meets curriculum standards for the Age of Exploration - Teaches basic map skills and navigation - Supplements math standards for measurement and geometry.

### Reviews

*Complete guideline! Its this type of great read through. it absolutely was writtern quite perfectly and helpful. I am very happy to explain how this is basically the best book i actually have read through during my personal life and can be he very best book for at any time.*

-- **Joshua Gerhold PhD**

*A very awesome book with perfect and lucid reasons. It really is basic but shocks within the 50 percent of the book. Its been designed in an exceptionally easy way and is particularly merely right after i finished reading this ebook where in fact changed me, change the way i think.*
