GRIN Verlag Mrz 2014, 2014. sonst. Bücher. Book Condition: Neu. 210x148x1 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2011 in the subject Computer Science - Commercial Information Technology, grade: A, University of Kent, course: BSC, language: English, abstract: Information is necessary for many businesses whether small, medium, or large, and the necessity of the information depends on a variety of uses. For example, in the case of proper planning in the business, senior managers will require information to facilitate this planning. However, middle-level management relies on detailed systems of information in order to properly control and monitor various activities in the business. At the same time, various employees who have operational roles also tend to rely on information systems in order to efficiently carry out their duties in the business. Due to all these necessities, many businesses tend to develop information systems that operate at the same time. The Microsoft Company applies Management Information Systems (MIS) in dealing with internal affairs of the company. An Office Automation System (OAS) improves the productivity of employees who need to process data and information (Bill 2006). The Microsoft Company deals with several software systems and the use of OAS becomes handy since it enhances employees' productivity. Employees have the ability to work from their own homes, as well as other areas at their convenience. Apart from these two systems of information, the other systems of information applicable by the Microsoft Company is the use of Decision Support Systems commonly known as DSS. A decision support system enables the management to make decisions in situations surrounded by uncertainty (Bill 2006). A lot of uncertainty occasionally arises from these big companies such as Microsoft and in such times, the use of DSS becomes handy....
