Excerpt from A Year's Campaign Against Dirt: Suggestions to Citizens of Cities, Towns, Villages and Hamlets, How to Keep Their Streets and Homes in a Healthful Condition To conquer the dirt which is unsightly, noisome, and may be pestiferous, we must work without interruption. This does not necessarily imply toil beyond the ability of every person in their particular sphere, but it means patient, methodical, day-by-day care and attention to details. It is really shameful to see communities stricken with panic at the approach of pestilential disease, and notice how unreasonable their efforts are to do something to stifle the disease-bearing effluvia. In a time not far passed methods have been employed for warding off disease, so entirely inadequate, so utterly without foundation in any sanitary principle, as to excite pity and derision. Rosin and tar by the hundreds of barrels have been burned without stint, covering a whole city with a pall of smoke, with the expectation of purifying an atmosphere foul with the accumulated dirt of many years, in a few days. Are we...

### Reviews

*This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.*
